

Product data sheet

Profile	Sinusodial profile 55/177 for roof and wall cladding
Material	Aluminium alloy 3005 -in accordance to DIN EN573-3:2007
Surface	Mill finished , stucco embossed
Surface coating	Polyester, PVdF, HDP, anticondensation coating ; antidrum coating
Length	Up to 15.000mm ex works (more than 15.000mm on request)
Curving	Smooth curving & crimp curving
Perforation	possible (thickness=0,8)
German approval no.	Z-14.1-545
Fire resistance	Class A1

thickness in mm	Area weight in KG/sqm	Cover width
0,7*	2,705	1255
0,8	3,091	1255
1,0	3,864	1255
1,2	4,637	1255

*only suitable for roof cladding
